### GERMANS GIVE UP THEIR PLAN TO TAKE VERDUN

Ambition Now Is to Remain Master of Battlefield.

Holding French at Verdun Robbed Allies' Big Drive.

"THE WAR WILL LAST LONG"

Germans Pay Tribute to Bravery of French Soldiers.

Reporter Visits German Lines on Famous Battlefield.

BY CARL W. ACKERMAN.  
With the German Army before Verdun, July 28.—(Via Berlin, Amsterdam and London.)—Germany's mastery here at Verdun robbed the French of their greatest drive. If co-operation in the allied drive, if French positions had not been under attack by the German forces, the attack by the tri-continental forces would have been simultaneously with the British thrust. But Germany now dominates the city.

German officers say the main thing is not whether Germany is to take Verdun, but whether the German forces remain as masters of the battlefield. Traveling all along the German front in this section, talking with officers and men, I find a different attitude as to the war's end from that which was expressed elsewhere. The belief of all was best expressed tonight by the grandson of General von Steinbock, the Prussian hero of the Revolutionary war, who said:

"The war will last long."  
Shell craters fifty feet deep. For ten miles on each side of the Verdun trenches, the face of the earth has literally been blown off. In the peck-marked with shells' craters, fifty some places vast holes thirty to fifty feet deep. Fighting has gone on under ground.

Universal respect is accorded French bravery by the Germans here. "French bravery in the underground trenches," said one staff officer, "was what prevented German troops from capturing the city."  
Today, from the summits of hills 17 and 310 the progress of artillery attacks on the French lines of Verdun, the German lines, could be plainly observed, as well as the details of small infantry attacks. Fourteen hours the war correspondents were permitted to walk and ride along this enormous battlefield. From observation on this journey and from conversations with the men who are doing the fighting, I am convinced (Continued on Page Two)

### FIND GINNELL GUILTY

Irish Member of Parliament Given Choice of Fine or Prison.

London, July 28.—Laurence Ginnell, the Irish nationalist member of parliament, who yesterday was the storm center in an uproar in the House of Commons, was today offered his choice of a fine of £100 or six weeks' imprisonment, following conviction of false representations by which he obtained admission to the barracks. The charge was lodged against the Irish member of parliament several weeks ago. Ginnell was captured in the Dublin revolt and was quartered at the barracks. Ginnell was remanded awaiting his action in the two alternatives. It was Ginnell who yesterday forced temporary adjournment of the House of Commons after creating a disturbance in accusing the Government of Home Affairs of "insolence" in answering one of his queries.

### CAPPER SELLS PAPER

Governor Disposes of News' Stock to Sloux City Journal-Tribune.

Sloux City, Ia., July 28.—The Sloux City News, purchased two weeks ago by Governor Arthur Capper, of Kansas, for \$15,000, was sold today by Capper to the Sloux City Journal-Tribune. The Journal-Tribune will take over the News subscribers.

### GREATER NEWSPAPER EXPENSE

[From Kansas City Star, July 27.]  
Newspapers generally have assumed that the public was not interested in their business arrangements. Such an assumption is a mistake. It has arisen, however, in connection with the advance in the cost of print paper—and for that matter, of practically everything that enters into newspaper production—that newspapers all over the country are being compelled to make readjustment of advertising and subscription rates to meet the new conditions.

White paper is the chief item of expense in newspapers of general circulation, and in the last few months its price has advanced 20 per cent, 30 per cent, and even in some cases 100 per cent. For metropolitan newspapers this means an added cost of production of several hundred thousand dollars a year. The advance in other materials, which is not so great, is very material, and increases the gravity of the problem.

### FUNSTON APPROVES IT

New English Gun, Invented by American, Turned Down by U. S.

San Antonio, Texas, July 28.—General Funston, returning from a trip to Leon Springs to inspect the Lewis machine gun, expressed his approval of the weapon.

The Lewis gun, the invention of an American army officer, was turned down by the United States government. Great Britain adopted it after the war began and it is now recognized as the greatest machine gun ever invented. The Benet-Mercier, more generally used in the United States, is a French patent and is decidedly unpopular with its operators.

### LAST WITH SIOUX

Savages and Indians End Their Double Series Today.

No New Pitching Talent Has Yet Been Procured.

Today's Line Up.  
Topeka.—  
Sioux City.—  
Gillmore, rf.  
Watson, cf.  
Huchman, 2b.  
Metz, 1b.  
Connelly, c.  
Conroy, ss.  
Rader, 3b.  
Livingston, c.  
Grover, p.

With an unchanged lineup, the Savages were ready to go against the Sioux City Indians in the last game of the series this afternoon, and victory was expected to be won by the Indians. The line-up of the Sioux City Indians was expected to be a strong one. The Indians were expected to be a strong one. The Indians were expected to be a strong one.

"Bugs" Grover, former Topeka pitcher, was expected to be a strong one. The Indians were expected to be a strong one. The Indians were expected to be a strong one.

John Savage stated today that no new pitchers yet had been added to the staff, but that he was still negotiating with various clubs for men.

### 100 HURT IN RIOT

Police and Strikers Clash in N. Y.; Street Cars Wrecked.

Union Leaders to Tie Up All Lines in Great City.

New York, July 28.—The national conference of the street railway employees today continued efforts to unionize all the motormen and conductors of New York City. Its leaders predicted that, if the street railway company did not yield to their demands in the Bronx and Westchester county, the strike in those districts would spread throughout the city.

Officers of the carmen's organization said arrangements for the fight all day has been in progress for several months and that a fund of \$750,000 was on hand in case of a strike of the subway, elevated and surface lines.

After a day marked by rioting and bloodshed, the operation of cars in New York was suspended at 9 o'clock last night. The police made nearly 100 arrests yesterday and more than 100 persons were injured in clashes between strikers, rioters and the police. No attempt has been made to fasten on the strikers blame for the fatal accident which occurred in the Bronx last night. In this accident a strike breaker, acting as motorman was killed and two policemen and a carman were injured. The carman was killed and two policemen and a carman were injured. The carman was killed and two policemen and a carman were injured.

600 Police Reserves Ready.

Chief Inspector Max Schmittberger, announced this morning that in anticipation of trouble more than 600 reserves were being held in readiness in the Bronx districts. During the forenoon there were intermittent clashes between strikers and carmen and on several occasions the police were forced to use their night sticks.

### IN A TRAP AT LAST

Capture of Villa by Defectors Imminent, Reports Capital.

Mexico City, July 28.—Pancho Villa is being driven into a trap. Ten thousand Carranza troops are driving him and his capture is imminent, according to officials here. The announcement was made in reply to rumors from the United States border that the bandit chief is moving toward Torreon.

"Such a story is ridiculous," it was stated today by a high official. "Villa cannot be caught in a trap."

Reply to Carranza's note suggesting a joint commission for settlement of the border difficulties is expected here. The Mexican government is expected to be a strong one. The Mexican government is expected to be a strong one. The Mexican government is expected to be a strong one.

### A NEW BOMB SUSPECT

Police Believe They Have Leader of Frisco Anarchist Gang.

San Francisco, July 28.—Thomas J. Mooney, a labor agitator, arrested with his wife, in connection with the preparedness parade bomb explosion, case, was the leader of a gang responsible for the explosion, according to the police who are proceeding on the theory that the bomb was intended primarily for a body of united railroad car men that marched in the parade.

### CAPTURE BREMEN? A BACKWARD STEP

Reports Reach Portland, Me., and New York City.

Believe It Authentic—U-Boat Being Towed to Halifax.

Despite Department Needs, Budgets Are Cut.

DEUTSCHLAND STILL WAITS COMFORT STATION IS O. K.

Germans Scout Stories That Sister Ship Is Taken.

Fear British Steamers Will After This, City's Estimates Will Be Settled.

New York, July 28.—Another circumstantial report regarding the whereabouts of the German merchant ship, the Bremen, long expected at some American port, is that the ship has been captured by British patrolling squadrons and is today tied up in the harbor of Halifax, N. S.

The report of the capture which is published here today is given in a letter said to have been written by the secretary of a high Canadian official to a business man of this city. The letter is dated to have been mailed from Buffalo, N. Y., two days ago. It was written in confidence it is stated, but the information it contains was divulged by the recipient to a friend in the course of an argument as to whether or not the Bremen could pass through the British barrier.

"You seem in New York to be worried about the Bremen. There is really no cause for worry, for at the present time she is tied up in what we call the Northwest Arm in the harbor of Halifax and is being well taken care of."

Portland Hears Report.

Portland, Me., July 28.—A telegram saying the German underwater merchant ship Bremen had been captured and was being towed into Halifax was received in this city today from a Canadian source which was believed to be reliable.

BY CARL D. GROOT.

Baltimore, Md., July 28.—Watchers aboard the German sub-sea freighter Deutschland want to see the ships of England.

They fear that a plan is on foot to have vessels in ballast in the harbor follow the Deutschland out to the coast and "accident" ram her. This would save the allied patrol a big task and as one of Germany's best ships, the British could say, "Oh, I beg pardon, I will pay you damages."

This fear is believed to be one of the compelling motives behind orders to the German ships to leave the harbor. The Bremen, however, is a vital factor. Stories that she has been captured brought the comment from a Deutschland official today:

Don't Believe Bremen Lost.

"Bah, she is not lost until three or four weeks."

He added that the Deutschland's sister ship is too clever to fall into the meshes of the Allied patrol.

All was peaceful along the Patuxent today. A permanent screen of the river was suspended at 9 o'clock last night. The police made nearly 100 arrests yesterday and more than 100 persons were injured in clashes between strikers, rioters and the police. No attempt has been made to fasten on the strikers blame for the fatal accident which occurred in the Bronx last night. In this accident a strike breaker, acting as motorman was killed and two policemen and a carman were injured. The carman was killed and two policemen and a carman were injured.

Excitement Over Rumor.

Ottawa, Ont., July 28.—What the naval department described later as an unfounded report that the German submarine freighter Bremen had been captured off Halifax, created excitement here today. No one knew where the rumor originated.

Report Denied at Halifax.

St. John, July 28.—J. D. Hazen, minister of marine and fisheries, today denied reports that the German submarine freighter Bremen had been captured and taken to Halifax. Halifax reports received also declared the Bremen was not there.

### FRAUD IN U. S. OFFICE

Internal Revenue Service in Chicago Forces Shake Up—Clerk Arrested.

Chicago, July 28.—Irregularities involving thousands of dollars have been discovered in the office of the internal revenue service in Chicago. Three-fold investigation is underway.

Already grafting by deputies and shortages in accounts of half a dozen clerks, ranging from \$25 to \$1,000, are said to have been discovered. Under local port rules, the collector under the chief of local revenue agents, was taken on a charge of using his position to extort money from saloonkeepers.

INCREASE 50 PER CENT

Kansas City Star Confronted by Enormous Increase Cost.

Kansas City, Mo., July 28.—The Kansas City Star announced: "Owing to the enormous increase in the cost of white paper, we have been reluctantly compelled to increase the subscription price of the Star, morning, evening and Sunday, to 15 cents a week."

### CENTRAL POWERS WILLING

U. S. Ambassador Reports Teuton Allies Favor Relief for Poland.

Washington, July 28.—Informal assurances that Austria-Hungary is disposed to respond favorably to President Wilson's appeal for permission for shipment of American relief supplies to Poles in territory held by Austrian forces have been given personally by Foreign Minister Burian to Ambassador Penfield.

Mr. Penfield reported today that he delivered personally to Count von Burian on July 26 President Wilson's plea in behalf of famine-stricken Poles and the foreign minister promised to deliver the president's message immediately to Emperor Francis Joseph. The minister's unofficial opinion was that the request of the president would be met by Austria and Germany.

### TO CONFER AGAIN

Railroad Brotherhoods Ready to Meet Operators Aug. 1.

Vote Simply Authorizes Committee to Take Action.

Cleveland, O., July 28.—The four railroad brotherhoods today notified the railroads' committees that they are prepared to resume conferences on an eight-hour day at ten-hour pay and time-and-a-half for overtime on August 1, in New York. The brotherhood officials hope for a satisfactory settlement of the demands, previously refused by the railroads.

The brotherhood officials will go into the conference backed up with the power of the referendum vote of 360,000 railway employees to "act as they deem best" in case the deadlock cannot be broken by agreement.

"The vote does not necessarily mean a strike but only authorizes the chief executives of the brotherhoods to call a strike 'provided' a satisfactory settlement cannot be obtained from the railroads."

The statements are sealed in envelopes by the individual members, and no one knows what the vote is until it is opened by the brotherhoods' committee in New York August 1. Any announcement before that time as to the result of the vote is only a guess.

### BOON TO FARMER

Hot Weather Fine for Corn, Says U. S. Bureau.

Potatoes and Tobacco Suffer for Lack of Rain.

Washington, July 28.—The sustained heat of the past ten days, registering record high marks throughout the middle west, was a boon to the corn crop, but a disaster to the potato and tobacco crops, according to the United States Department of Agriculture.

"Corn crops," says the government experts, "are progressing very satisfactorily and are tasseling as far north as the Dakotas, Nebraska, Minnesota and North Dakota in the west."

More rain must come within the next two or three weeks, however, or according to the government report, the corn crop will suffer. This is the critical period for the corn. Truck gardening crops, including potatoes and tobacco, have suffered from the intense heat throughout the central and northern states.

The temperature was too high for spring wheat in North Dakota and Minnesota. The wheat crop has developed in North Dakota, South Dakota and Minnesota.

The weather conditions were favorable for haymaking over the northern part of the United States. The lack of rain, says the department, is adversely affecting the corn crop in the Rocky mountain and central great plains region and in the central valley states.

### FOUR NCHES OF LAND

New York Bank Brings Suit to Quiet Title on Space.

New York, July 28.—To clear the title to four inches of ground in Broadway bankruptcy proceedings ten years old have been re-opened against Fret Bannor, one time wealthy real estate broker, who has been bankrupt in 1906. Previously he gave mortgages on No. 438 Broadway to the Union Dime Savings Bank for \$300,000. The Broadway Trust company for \$60,000. All actions in bankruptcy were later dropped but Bannor was never discharged by the court.

Today the Union Dime Savings Bank re-opened the proceedings because, it is alleged, the mortgage given to the Broadway Trust company and exercised years ago by a foreclosure sale, omits the mention of four inches between the lot and the building and the limit of the site.

The bank wants to foreclose on the entire property but cannot do so because the mortgage was given to the Broadway Trust company and exercised years ago by a foreclosure sale, omits the mention of four inches between the lot and the building and the limit of the site.

### HE IS PESSIMISTIC

Chairman Bristow Concerned About Topeka Railway Bonds.

Acting under directions of Chairman Bristow, the public utilities commission will look for jokers in the petition of the Topeka Street Railway company for permission to issue \$251,000 in bonds. Bristow is said to have confided to certain persons that the street railway will be the next exhibit before his commission.

Recently the street railway company asked permission to issue \$251,000 in bonds. The commission wants to know the purpose for which the money will be used. Action concerning the application will be held up pending a report from the company. Bondholders of the street railway company at this time is given \$1,145,000.

### IT'S 3-BARRELLED

Hughes Speech To Be Based on Trio of Charges.

Political "Eyes and Ears of Capital" Await Monday.

HUGHES IS TO BE NOTIFIED

His Reply Will Be Keynote for Fall Campaign.

Chairman Willcox's Statement Considered a Forecast.

Washington, July 28.—Administration leaders have their political eyes and ears turned toward Monday. On that day Charles E. Hughes will receive official notification of his nomination for president—and will reply with an address marking the opening of his campaign.

Those close to the president say they are not "worried" about what the former justice may say. Hughes, they say, are certainly "keenly interested."

They believe the speech will be divided into three main features: A criticism of the president's Mexican policy and foreign policy. General charges that the Democratic party is unable to cope with the business upheavals bound to come after the war.

Appeal for the restoration of the Republican party to power "to bring a return of respect abroad and business-like administration at home."

Willcox Already "Loaded."

The president has not waited for Hughes speech to prepare his own address of acceptance. He has been working on it for some time. One of his intimate friends expressed the belief that the first draft was completed, subject to change should the Republican candidate spring any surprises. Senator James, who was notified of his nomination, is, however, waiting on Hughes' speech Monday before outlining what he will say at the notification meeting in New Jersey.

Will Break News on Mexico.

New York, July 28.—First formal indication that Mexico will be the main issue on which the Republicans will attack the Wilson administration in the presidential campaign was contained in a statement issued today by National Chairman Willcox.

The statement denied the Republican party's criticism of the handling of the Mexican problem was "dictated" by any sinister influence, corporate or otherwise, is contrary to the facts. Our interest in Mexico is "to resist solely and exclusively of the maladministration of American relations with Mexico and the various Mexican factions."

Mexico Is a Vital Issue.

"The weakness of the Wilson administration in dealing with the Mexican question is so fully before the American people that it is a vital issue in this campaign."

"It is therefore not impossible for the Democratic party to evade the responsibility for conditions in Mexico by ascribing ulterior motives. The issue is plain and clear cut. It is the principle of the Republican party to insist upon the full protection of American citizens and American rights."

### SUKHOMLINOFF INSANE

Former Russian Minister of War Seriously Ill at Petrograd.

Petrograd, July 28.—General Vladimir Sukhomlinoff, former Russian minister of war, is seriously ill. It is feared that he is afflicted with insanity.

General Sukhomlinoff, who is now in his sixtieth year, is a war hero and a man of military gifts, but allowed himself to be influenced by people of the adventure type. He became involved in the Russian revolution and was charged with betraying Russian plans to Germany.

When General Sukhomlinoff moved to Petrograd and took over the post of minister of war he was followed by a majority of his Kieff satellites. Among them was Myasodent, in whom he appears to have reposed the greatest confidence and to have communicated to him many of the secrets of the department he was administering.

A considerable share of the responsibilities of Russia's unpreparedness is attributed to the general.

### APPOINTS A SHERIFF

Governor Capper Names James C. Fillenwider in Morton Co.

Governor Arthur Capper today appointed James C. Fillenwider, of Morton county, to fill the unexpired term of Sheriff Martin Moore, who was shot and killed at the home of Don Worner, a real estate dealer of Rolla.

Fillenwider was appointed on account of a petition from the citizens of Morton county people and was recommended by several county officials. The appointment is to take effect immediately.

Orient R. R. Board Meets.

Kansas City, July 28.—A meeting of the directors of the Kansas City Mexico and Orient Railroad was held today, but according to Edward Dickinson, president of the road, no important business was transacted. The regular meeting of the board will be held August 8.

### CHILD LABOR BILL HELD

Trouble Over Immigration Clause in Senate—Adjournment Sept. 1.

Washington, July 28.—Anxiety about the immigration bill pinned to the Child Labor bill by Senator Borah resulted in a conference today between President Wilson and Senator Pomeroy. Administration leaders do not want the immigration question to come up in the senate at this time. After his conference with the president, Mr. Pomeroy expressed the hope and belief that Borah's amendment would not be pressed.

Means of keeping the immigration question out of the senate at this time was discussed. Senator Kern today set September 1 as his latest opinion on the date of adjournment.

### RELIEF FARTHER OFF

The Chance for Rain Is Growing Less Day by Day.

Kansas sweltered again today under a copper sky and the weather man has announced that the chances of rain and relief from the hot weather are remote. The longer it stays dry, according to S. D. Flora, local observer, the less chance there is of local showers and we will have to wait for a general change all over the country.

No rain anywhere in Kansas last night and temperatures were high over the entire state. The wind, which made from 10 to 12 miles an hour yesterday, promises to afford some relief again today but this morning it was thought that the mercury would climb to the century mark.

Last night was warmer than this year with one exception. The mercury at 7 o'clock in the evening showed 93 degrees and at 6 o'clock 97 degrees. The forecast calls for generally fair weather with continued high temperatures tonight and tomorrow.

The longer it stays dry the more wind will blow and this will give some hope to Kansans who are anxious to see the weather change. The wind, however, is the worst thing possible for the corn as it dries the ground more rapidly. The Kaw river is at a standstill today at a stage of 6.6 feet.

The highest temperature on record for this date is 105 degrees, established in 1919. The lowest temperature occurred in 1891. On July 28, 1902, a rain of 1.83 inches was recorded.

Hourly temperature readings furnished by the weather bureau:  
7 o'clock ..... 78 11 o'clock ..... 94  
8 o'clock ..... 82 12 o'clock ..... 94  
9 o'clock ..... 86 1 o'clock ..... 96  
10 o'clock ..... 91 2 o'clock ..... 96

The wind is blowing at the rate 12 miles an hour from the southeast. The thermometer today is 12 degrees higher than at that time yesterday, three degrees. At that time it was thought that the mercury would reach the 100 degree mark.

### STEEL WORKERS QUIT

Chicago Rolling Mills Shut Down on Account of Heat.

Chicago, July 28.—Workmen in the rolling mills of the Republic Iron and Steel company and the Interstate Iron and Steel company refused to go to work on account of the intense heat this morning and as a result both mills were closed. The heat was so bad that the workers refused to go to work. The workers refused to go to work. The workers refused to go to work.

Employees of other mills will protest against working under the present heat conditions. Temperatures in the rolling mills a few days ago ranged from 140 to 160 degrees.

Fifteen winds from the lake gave Chicago and other cities a brief respite of relief today, the temperature at noon here being 95.

### DENTISTS CHOOSE PRESIDENT

Louisville, Ky., July 28.—Dr. L. Barber of Toledo, Ohio, was elected president of the National Dental association and New York city was selected for the convention of 1917 here today.

WEATHER FORECAST for Kansas: Generally fair tonight and Saturday; continued high temperatures.

## TWO CENTS

### MANY DE FROM TERRIFIC HEAT WAVE IN WEST

Twenty-Six Victims During Sweltering Night in Chicago.

No Letup to High Temperatures Sweeping Prairie States.

HOT SPELL SMOTHERS BABIES

Total Number of 47 Deaths Reported All Over Country.

"In for a Nice Warm Spell," Says Weather Man.

Chicago, July 28.—Twenty-six persons died here during the night as a result of the terrific heat wave which has been sweeping prairie states the last two weeks, reports to the coroner's office stated today. This brings the total number of dead in Chicago as a result of the heat up to 44 within the last 24 hours.

The total number of victims was swelled to 47 with reports from Minneapolis, Rock Island and Phoenix. Ariz. of one dead at each place from the heat.
